- ✓ No Waterlines Needed
- ✓ Requires Minimum Countertop Space
- ✓ Simple To Operate

Keep it Refrigerated!

Cool & Profitable Dispensers

Always Dispense Premium, Quality Beverages . . . **NOT From Concentrate!**

Cecilware's new line of *Ready To Serve Dispensers* allow an operator to dispense 2 or 3 flavors of pre-mixed bag-in-the-box drinks. The refrigerated dispenser dispenses a host of ready to serve beverages, all at the push of a button. No need to add water or other diluting liquids. The wrong dilution mix can lose you customers. You'll Dispense Consistent Quality Beverages, All The Time! Cecilware's dispenser gives you ample opportunity to develop a customer following with your great tasting drinks!

Change Beverages Quickly and Frequently To Offer Variety

To change beverage offerings, simply wait until the 2½ gallons of product has been dispensed and remove it from the dispenser. Replace it with another flavor. It's that simple! Cecilware's *Ready To Serve Dispensers* allow you to dispense the product cold, directly from the hermetically sealed bag-in-the-box or optional refillable container. No need to re-calibrate water to product ratios anymore!
